MSB Error: "403 Unit not open"

Published 02/22/2010

Symptom(s):

MSB Error: "403 Unit not open"
Error: 'Input overflow (55 4f 50 4e 20 55 31 0d 0a 55 4f 50 4e 20 55 37 0d 0a / 55 4f 50 4e 20 55 37 0d 0a)'

Fact(s):

SGI Media Server for Broadcast
MSB driven by an Aveco Automation.
MVCP

SGI Solution:

A possible workaround might be to include a delay between the UOPN commands

Cause(s):

Two UOPN commands overlapped such that only the 2nd is issued.

Answers others found helpful

- Can not replace an existing video file with a new one, with the same name.
- The system time does not synchronise with time code server (TC)
- Intel S5000PSL motherboard AMBER LED is on causes system hang
